# **Responsibility Statement**

We confirm that to the best of our knowledge:

- the condensed set of financial statements has been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the UK,
- the interim management report includes a fair review of:
  - a) important events that have occurred during the first six months of the financial year and their impact on the condensed set of financial statements; and a description of the principal risks and uncertainties for the remaining six months of the year; and
  - b) related party transactions that have taken place in the first six months of the current financial year and that have materially affected the financial position or performance of the entity during that period; and any changes in the related party transactions described in the last annual report that could do so.

By order of the Board,

Notes to the interim condensed consolidated financial statements

## 1 Reporting entity

Global Ports Holding Ltd is a limited liability company incorporated in the United Kingdom and registered in England and Wales under the Companies Act 2006. The address of the registered office is 35 Albemarle Street, 3rd Floor, W1S 4JD, London, England, United Kingdom. The majority shareholder of the Company is Global Yatırım Holding ("GIH").

These condensed interim consolidated financial statements of Global Ports Holding Limited (the "Company", and together with its subsidiaries, the "Group") for the six months ended 30 September 2024 were reviewed by the Company's board of directors at its meeting on 3 December 2024.

#### 2 Accounting policies

# a) Basis of preparation

This condensed set of consolidated financial statements for the six-month period ended 30 September 2024 and 30 September 2023 have been prepared in accordance with the UK adopted International Accounting Standard 34 'Interim Financial Reporting' in conformity with the requirements of Accounting Standards Board's half yearly financial reports statement dated July 2007.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the consolidated financial statements as at and for the year ended 31 March 2024. Also, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements.

The comparative figures for the financial year ended 31 March 2024 are not the Company's statutory accounts for that financial year. Those accounts have been reported on by the Company's auditor and delivered to the registrar of companies. The report of the auditor was (i) unqualified, (ii) did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 498 (2) or (3) of the Companies Act 2006.

## b) Going concern

The Group operates 32 ports in 19 different countries and is focusing on increasing its number of cruise ports in different geographical locations to support its operations and diversify economic and political risks. As a consequence, the directors believe that the Group is well placed to manage its business risks successfully irrespective of the current economic outlook.

Group management believes that the Group is well placed to manage its financing and other business risks satisfactorily and have a reasonable expectation that the Group will have adequate resources to continue in operation for at least 12 months from the date of these consolidated interim financial statements. They therefore consider it appropriate to adopt the going concern basis of accounting in preparing the interim financial statements.

# c) Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 March 2024.

## d) Change in / new accounting policies

The accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 March 2024.

## e) Foreign currency

Transactions in foreign currencies are translated into the respective functional currencies of the Group entities by using the exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities denominated in foreign currencies carried at historical cost should be retranslated using the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in profit or loss.

The Group entities use United Stated Dollars ("USD"), Euro ("EUR") or Turkish Lira ("TL") as their functional currencies since these currencies represent the primary economic environment in which they operate. These currencies are used to a significant extent in, or have a significant impact on, the operations of the related Group entities and reflect the economic substance of the underlying events and circumstances relevant to these entities. Transactions and balances not already measured in the functional currency have been re-measured to the related functional currencies in accordance with the relevant provisions of IAS 21 *The Effect of Changes in Foreign Exchange Rates*. The Group uses USD as the presentation currency.

Assets and liabilities of those Group entities with a different functional currency than the presentation currency of the Group are translated into the presentation currency of the Group at the exchange rate as of the reporting date. The income and expenses of the Group entities are translated into the presentation currency at the average exchange rates for the period. Equity items, except for net income, are translated using their historical costs. These foreign currency differences are recognised in "other comprehensive income" ("OCI"), within equity under "translation reserves".

As at 30 September 2024, 31 March 2024 and 30 September 2023, foreign currency exchange rates of the Central Bank of the Turkish Republic were as follows:

|          | 30 September 2024 | 31 March 2024 | 30 September 2023 |
|----------|-------------------|---------------|-------------------|
| TL/USD   | 0.0293            | 0.0310        | 0.0365            |
| Euro/USD | 1.1152            | 1.0779        | 1.0604            |

For the six months ended 30 September 2024 and 30 September 2023, and for the year ended 31 March 2024, average foreign currency exchange rates of the Central Bank of the Turkish Republic were as follows:

|          | Six months ended<br>30 September<br>2024 | Six months ended<br>30 September<br>2023 | Year ended 31<br>March 2024 |

| Euro/USD | 1.0883                                   | 1.0883                                   | 1.0843                      |

## f) Alternative performance measures

These interim condensed consolidated financial statements includes certain measures to assess the financial performance of the Group's business that are termed "non-IFRS measures" because they exclude amounts that are included in, or include amounts that are excluded from, the most directly comparable measure calculated and presented in accordance with IFRS, or are calculated using financial measures that are not calculated in accordance with IFRS. These non-GAAP measures comprise the following.

## f) Alternative performance measures (continued)

#### **Segmental EBITDA**

Segmental EBITDA calculated as income/(loss) before tax after adding back: interest; depreciation; amortisation; unallocated expenses; and Specific adjusting items.

Management evaluates segmental performance based on Segmental EBITDA. This is done to reflect the fact that there is a variety of financing structures in place both at a port and Group-level, and the nature of the port operating right intangible assets vary by port depending on which concessions were acquired versus awarded, and which fall to be treated under IFRIC 12. As such, management considers monitoring performance in this way, using Segmental EBITDA, gives a more comparable basis for profitability between the portfolio of ports and a metric closer to net cash generation. Excluding project costs for acquisitions and one-off transactions such as project specific development expenses as well as unallocated expenses, gives a more comparable year-on-year measure of port-level trading performance.

Management is using Segmental EBITDA for evaluating each port and group-level performances on operational level. As per management's view, some specific adjusting items are included in the computation of Segmental EBITDA.

## Specific adjusting items

The Group presents specific adjusting items separately. For proper evaluation of individual ports financial performance and the consolidated financial statements, Management considers disclosing specific adjusting items separately because of their size and nature. These expenses and income include project expenses, being the costs of specific M&A activities, the costs associated with appraising and securing new and potential future port agreements which should not be considered when assessing the underlying trading performance and the costs related to the refinancing of Group debts; the replacement provisions, being provision created for replacement of fixed assets which does not include regular maintenance; other provisions and reversals related to provisions provided, being related to unexpected non-operational transactions, impairment losses; construction accounting margin, being related to IFRIC 12 computation and main business of the Group is operating ports rather than construction; other income & expenses including employee termination expenses, income from insurance repayments, income from scrap sales, gain/loss on sale of securities, other provision expenses, costs related to non-recurring marketing events, redundancy expenses and donations and grants.

Specific adjusting items comprised as following,

## **Adjusted EBITDA**

Adjusted EBITDA is calculated as Segmental EBITDA less unallocated (holding company) expenses.

Management uses an Adjusted EBITDA measure to evaluate Group's consolidated performance on an "as-is" basis with respect to the existing portfolio of ports. Notably removed from Adjusted EBITDA, are the costs of specific M&A activities and the costs associated with appraising and securing new and potential future port agreements. M&A and project development are key elements of the Group's strategy in the Cruise segment. Project lead times and upfront expenses for projects can be significant, however these expenses (as well as expenses related to raising financing such as acquisition financing) do not relate to the current portfolio of ports but to future EBITDA potential. Accordingly, these expenses would distort Adjusted EBITDA which management is using to monitor the existing portfolio's performance.

A full reconciliation for Segmental EBITDA and Adjusted EBITDA to profit before tax is provided in the Segment Reporting Note 3 to these financial statements.

#### **Underlying Profit / (Loss)**

Management uses this measure to evaluate the profitability of the Group normalised to exclude the specific non-recurring expenses and income, and adjusted for the non-cash port intangibles amortisation charge, giving a measure closer to actual net cash generation, which the directors' consider a key benchmark in making the dividend decision.

Underlying Profit is calculated as profit/(loss) for the period or year after adding back: amortization expense in relation to Port Operation Rights, depreciation expense in relation to Right-of-use assets and specific non-recurring expenses and income.

## Adjusted earnings per share

Adjusted earnings per share is calculated as underlying profit divided by weighted average number of shares.

Management uses these measures to evaluate the profitability of the Group normalised to exclude the gain on reversal of provisions, non-cash provisional income and expenses, gain or loss on foreign currency translation on equity, unhedged portion of investment hedging on Global Liman, adjusted for the non-cash port intangibles amortisation charge, and adjusted for change in accounting policies, giving a measure closer to actual net cash generation, which the directors' consider a key benchmark in making the dividend decision. Management decided this year that in the light of a more meaningful presentation of the underlying profit, the unhedged portion of the investment hedge on Global Liman and any gain or loss on foreign currency translation on equity have been excluded.

Underlying profit and adjusted earnings per share computed as following:

#### Net debt

2

Net debt comprises total borrowings (bank loans, bonds, notes and leases net of accrued tax) less cash, cash equivalents and short-term investments.

Management includes short term investments into the definition of Net Debt, because these short-term investments are comprised of marketable securities which can be quickly converted into cash.

Net debt comprised as following:

## Hard currency

Management uses the term hard currency to refer to those currencies that historically have been less susceptible to exchange rate volatility. For the period ended 30 September 2024 and 2023, and for the year ended 31 March 2024, the relevant hard currencies for the Group are US Dollar, Euro, Canadian Dollar, Danish krone and Singaporean Dollar.

## 3 Segment reporting

## a) Products and services from which reportable segments derive their revenues

The Group operates various cruise ports and one commercial port, and all revenue is generated from external customers such as cruise liners, ferries, yachts, individual passengers, container ships and bulk and general cargo ships.

#### b) Reportable segments

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision-maker, in deciding how to allocate resources and assessing performance.

The Group presents its operations on a regional basis, with each key region representing an individual operating segment with a set of activities which generate revenue, and the financial information of each region is reviewed by the Group's chief operating decision-maker in deciding how to allocate resources and assess performance. The segment assessment of the Group has changed during the fiscal year as a result of structural changes and concentration of the investment of the Group to Cruise operations and vertical integration of additional services within the Cruise business. The Group has identified four key regions it operates as segments; these are West Mediterranean & Morthern Europe, East Mediterranean, and Americas. The Group's chief operating decision-maker is the Chief Executive Officer ("CEO"), who reviews the management reports of each region at least on a monthly basis.

The CEO evaluates segmental performance on the basis of earnings before interest, tax, depreciation and amortisation excluding the effects of Specific adjusting items (see Note 2 (f) for alternative performance measures (APM)), and including the share of equity-accounted investments which are fully integrated into GPH cruise port network ("Adjusted EBITDA" or "Segmental EBITDA"). Adjusted EBITDA is considered by Group management to be the most appropriate profit measure for the review of the segment operations because it excludes items which the Group does not consider representing the operating cash flows generated by underlying business performance. The share of equity-accounted investees has been included as it is considered to be a proxy to the operating cash flows generated by the Group's operations that are structured in this manner.

The contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the reporting date on Commercial services provided to vessels and rental agreements. The contract assets are transferred to receivables when the rights become unconditional. This occurs when the Group issues an invoice to the customer.

The contract liabilities primarily relate to the advance consideration received from customers for providing services, for which revenue is recognised over time. These amounts will be recognised as revenue when the services have been provided to customers and billed.

The amount of \$1,210 thousand recognised in contract liabilities at 31 March 2024 has been recognised as revenue during the period ended 30 September 2024.

No information is provided about remaining performance obligations at 30 September 2024 that have an original expected duration of one year or less, as allowed by IFRS 15.

- (\*) As part of the concession agreement between Creuers and the Barcelona (entered in 1999 for WTC wharf and in 2003 for Adossat Wharf) and Malaga Port Authorities (entered in 2008), the Company has an obligation to maintain the port equipment in good operating condition throughout its operating period, and in addition return the port equipment to the Port Authorities in a specific condition at the end of the agreement.
- (\*\*) As part of agreement between NCP and Government of Bahamas entered into in 2019, ancillary contributions will be made to local community to increase the wealth of people of Bahamas. These payments will be made as grant and partly as interest free loan. Therefore, a provision is provided for ancillary contributions based on Management's best estimate of these payments.
- (\*\*\*) On 13 June 2011, Catania Port Authority and Catania Cruise Terminal S.r.l. ("CCT") entered into an agreement regarding the operating concession for the Catania Passenger Terminal which terminates on 12 June 2026. CCT had an obligation to pay a concession fee to the Catania Port Authority of Euro 135,000 per year until end of concession. The expense relating to this concession agreement is recognized on a straight-line basis over the concession period, giving rise to an accrual in the earlier years.

## 12 Earnings / (Loss) per share

The Group presents basic earnings per share ("basic EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, less own shares acquired.

The Group introduced share-based payments as part of its long-term incentive plan to directors and senior management in 2019. In August 2024, the Company decided to withdraw its shares from London Stock Exchange, as a result a total amount of 636,500 shares included on long term incentive plan has been issued and settled.

At a General Meeting of the Company held on 9 June 2021, certain resolutions were passed related to issuing warrants to Sixth Street, in the context of the financing package agreed with Sixth Street, representing 9.0% of the fully-diluted share capital, and these warrants have been issued in July 2021. Resolutions were also passed related to issuing further warrants to Sixth Street, pro-rata to the utilisation of the USD 75.0 million growth facility, of which additional warrants representing 2.0% of the Company's fully-diluted share capital have been issued in connection of the partial drawdown from the USD 75 million growth facility in March 2023. The warrants have become exercisable upon de-listing of GPH and are fully exercised and the respective Company shares have been issued to Sixth Street.

Notes to the interim condensed consolidated financial statements

# 12 Earnings / (Loss) per share (continued)

In September 2024 the Company issued 5,495,273 new ordinary shares at USD 4.02 per share to GIH in satisfaction of the same amount (USD 23,900,000) of a shareholder loan owed by the Company to GIH. The total number of new ordinary shares is approximately 7.2 per cent of the current issued share capital of the Company, and the total issued share capital after the debt-to-equity conversion is 83,014,899 ordinary shares.

Earnings per share is calculated by dividing the profit/loss attributable to ordinary shareholders, by the weighted average number of shares outstanding.

## 14 Commitment and contingencies

There are pending lawsuits that have been filed against or by the Group. Management of the Group assesses the possible results and financial effects of these lawsuits at the end of each period and as a result of these assessments, the required provisions are recognised for the possible expenses and liabilities. The total provision amount that has been recognised as at 30 September 2024 is USD 30 thousand (31 March 2024: USD 385 thousand, 30 September 2023: USD 294 thousand).

The information related to the significant lawsuits that the Group is directly or indirectly a party to, is outlined below:

Port of Adria-Bar (Montenegro) is a party to the disputes arising from the collective labour agreement executed with the union by Luka Bar AD (former employer/company), which was applicable to Luka Bar AD employees transferred to Port of Adria-Bar. The collective labour agreement has expired in 2010, before the Port was acquired by the Group under the name of Port of Adria-Bar. However, a number of lawsuits have been brought in connection to this collective labour agreement seeking (i) unpaid wages for periods before the handover of the Port to the Group, and (ii) alleged underpaid wages as of the start of 2014. On March 2017, the Supreme Court of Montenegro adopted a Standpoint in which it is ruled that collective labour agreement cannot be applied on rights, duties and responsibilities for employees of Port of Adria-Bar after 30 September 2010. Although the Standpoint has established a precedent that has applied to the claims for the period after 30 September 2010; there are various cases pending for claims related to the period of 1 October 2009 – 30 September 2010. In respect of the foregoing period of one year, the Port of Adria-Bar has applied to the Constitutional Court to question the alignment of the collective labour agreement with the Constitution, Labor Law, and general collective agreement. The Port of Adria-Bar is notified that the application for initiating the procedure for reviewing the legality of the Collective Agreement has been rejected due to a procedural reason, without evaluating the arguments submitted. In evaluating the merits of the existing cases, local courts have ruled out in contradiction of the previous judgments which has allowed Port of Adria- Bar to appeal before the Supreme Court of Montenegro and request re-evaluation of the applicability of the dispute clauses of the collective labour agreement until 30 September 2010.

#### 16 Financial Instruments' fair value disclosures

#### Fair value measurements

The information set out below provides information about how the Group determines fair values of various financial assets and liabilities.

Determination of the fair value of a financial instrument is based on market values when there are two counterparties willing to sell or buy, except under the conditions of events of default forced liquidation. The Group determines the fair values based on appropriate methods and market information and uses the following assumptions: the fair values of cash and cash equivalents, other monetary assets, which are short term, trade receivables and payables and long term foreign currency loans and borrowings with variable interest rates and negligible credit risk change due to borrowings close to year end are expected to approximate to the carrying amounts.

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Input other than quoted prices included within level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices);
- Level 3: Inputs for the asset or liability that is not based on observable market data (unobservable inputs).

Except as detailed in the following table, the directors consider the carrying amounts of the Group's financial assets and financial liabilities were approximate to their fair values.

## Financial instruments at fair value

The table below analyses the valuation method of the financial instruments carried at fair value. The different levels have been defined as follows:

| (USD '000)              |                      | Level 1 | Level 2 | Level 3 | Total |
|-------------------------|----------------------|---------|---------|---------|-------|

| (Audited)               | liabilities          |         |         |         |       |
| As at 30 September 2023 | Derivative financial |         |         |         |       |

The valuation technique and inputs used to determine the fair value of the interest rate swap is based on future cash flows estimated based on forward interest rates (from observable yield curves at the end of the reporting period) and contract interest rates, discounted at a rate that reflects the credit risk of various counterparties.

## 17 Events after the reporting date

In December 2024, Nassau Cruise Port completed the refinancing of one of the outstanding notes. Nassau Cruise Port entered a senior unsecured loan facility for refinancing all of the USD 55 million notes issued November 2021 (7.5% coupon) with a loan ranking pari-passu to the other bonds and notes at Nassau Cruise Port at a fixed interest rate of 4.25% payable semi-annually in arrears and a final maturity in 2034 (weighted average maturity of 8.2 years). The same loan facility includes a tranche for the financing of further, discretionary expansion CAPEX at Nassan Cruise Port.
